DETAILED ACTION

1. This Office Action is responsive to the RC E and Amendment filed on 8/13/07.

Accordingly, claims 11, 14, 15 and 18 are currently pending; and claims 1-10, 12, 13, 16, 17 and 19-30 are canceled.

REASONS FOR ALLOWANCE

2. Claims 11, 14, 15 and 18 are allowed.

3. The following is an examiner's statement of reasons for allowance:

-Regarding independent claim 11, none of prior art of record teaches or suggests a turbo decoder, as claimed. The admitted prior art, previously cited, teaches the claimed turbo decoder except the difference is that the admitted prior art turbo decoder has a normalization unit provided between the output of the second SOVA decoding unit and the input of the first SOVA decoding unit whereas the claimed turbo decoder does not have such a normalization unit provided between the output of the second SOVA decoding unit and the input of the first SOVA decoding unit; and therefore, in this way, the complexity of claimed turbo decoder is reduced. It would not have been obvious for one skilled in the art to implement the admitted prior art turbo decoder in view of other prior art for leading such the implementation to the claimed invention.

-Regarding independent claim 15, none of prior art of record teaches or suggests a turbo decoding method, as claimed. The admitted prior art, previously cited, teaches the claimed turbo decoding method except the difference is that the admitted prior art turbo decoding method has a normalization unit provided between the output of the second SOVA decoding unit and the input of the first SOVA decoding unit whereas the claimed turbo decoding method does not have such a normalization unit provided between the output of the second SOVA decoding unit and the

input of the first SOVA decoding unit; and therefore, in this way, the complexity of claimed turbo decoding method is reduced. It would not have been obvious for one skilled in the art to implement the admitted prior art turbo decoding method in view of other prior art for leading such the implementation to the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
